# 36W/24V Industrial DIN Rail Power Supply

(GWS-P3000-DP36-24)

#### **OVERVIEW**

GWS-P3000-DP36-24 is an economical 36W DIN rail power supply that conforms to German industrial standards. It is suitable for installation on TS-35/7.5, or TS-35/15 rails, using 90VAC to 264VAC input, and complies with EN61000-3-2 Standard on Harmonic Current Specifications Specified by the European Union.

GWS-P3000-DP36-24 adopts a metal shell design to improve heat dissipation consumption. The working efficiency is as high as 89%, and the product can work in an ambient temperature of -40 degrees to 70 degrees under the condition of air circulation. It has a constant current mode overload protection function, suitable for a variety of inductive or capacitive load applications, complete protection functions, and compliance with relevant certifications for industrial control equipment, making it a very competitive power supply solution for industrial applications.
